Professional Summary

Computer Science student at TSI in Riga, with hands-on experience in Linux, Docker, C++, Bash scripts. Seeking a junior developer/administartor role (local or remote, fluent in English), eager to grow and contribute.

Technical Skills

- **Languages:** Python (primary), C++, C.
- **Scripting & Tools:** Docker, Bash scripts, Linux command line, SSH.
- **Platforms:** Ubuntu/Linux, Docker containers.

Projects

- **Bash Script: Portainer Auto-Update**
  - Wrote a Bash script to automate updating a self-hosted Portainer instance in Docker — streamlined container management and reduced manual maintenance.
- **Ubuntu Bootstrap Script**
  - Wrote a Bash script to configure new Ubuntu- server instance, install Docker, tools, and user settings — quick and repeatable setup.
- **Warehouse Management Console App (TSI 1st year Coursework)**
  - Designed and implemented in C++. Menu based console app to add/remove inventory, list items and waybills. Shows fundamentals of C++ and data handling.
- **Self-Hosted Ubuntu Server for Personal Infrastructure**
  - Deployed and maintaining an Ubuntu/Linux home server using Docker
  - Some of the self-hosted apps I manage at home: Matrix homeserver, Home Assistant stack, Jellyfin stack, AdGuard Home, and others.
  - Use Docker Compose for service orchestration; configured SSL with Traefik reverse proxy and Cloudflare
  - Manage updates, backups, firewall configuration, and SSH access remotely

Education

Transport and Telecommunication Institute (TSI), Riga
Bachelor of Computer Science — Expected 2028

- Relevant coursework: Data Structures, Operating Systems, Programming Fundamentals
- Cisco Academy Certificate: Introduction to Cybersecurity 2024
    - link: https://s.darkzoul.org/ciscocert1

Work Experience

General Laborer, Airport Equipment Manufacturer — Riga (Summer 2022)

- Worked at a company that builds airport infrastructure such as baggage conveyors, aircraft stairs etc.
  I supported mechanical teams with a variety of hands-on tasks including cutting, grinding, drilling, assembly. Demonstrated reliability, teamwork, and precision in time-sensitive manufacturing tasks

Languages

- English (fluent, B2),
- Russian (native),
- Latvian (B2)

Interests

- Self-hosting,
- Linux systems,
- Open-source software,
- ESP32 Devices
- Personal Computer Building
